

## Energy Savings Assistance Program

### What Is the Energy Savings Assistance Program (ESAP)?

The California Public Utilities Commission's (CPUC) ESAP provides no-cost weatherization services to eligible low-income households. These services help reduce the cost of utility bills. Services provided include attic insulation, energy efficient refrigerators, energy efficient furnaces, weather stripping, caulking, low-flow showerheads, water heater blankets, and door and building envelope repairs, which reduce air infiltration.

The program also provides customers with information on other available assistance programs as well as education to promote energy efficient practices.

### Who Can Apply?

Customers who meet the following income limits are eligible for ESAP:

#### ESAP Income Eligibility as of June 1, 2022
