

January 10, 2023

Working Group Meeting Agenda

1:00 – 1:30 pm

- eCAP Implementation (requested topic)
- Request for Working Group's input for General Order 153 identified updates

California Public
Utilities Commission

Meeting Facilitator, Lisa Bass
lisa.bass@cpuc.ca.gov

eCAP Implementation (requested topic)

- 1) **eCAP go-live date is tentatively Monday, 1/23**
 - Go/No-Go to be determined on Friday, 1/20
- 2) **Service Providers must cut over and file on eCAP system once the TPA submits the WAR and Connections reports after 1/23**
 - All Service Providers will be notified of this submission from eCAP
- 3) **Upcoming Service Provider Training is scheduled on Thursday, 1/19, during the TPA SP weekly meeting, and on Friday, 1/20**
 - Recordings will be made available

For more information on eCAP implementation, please contact lifelineclaim@cpuc.ca.gov

Request for Working Group's input for General Order 153 identified updates

First GO Update Iteration

Would the future GO update positively, negatively, or neutrally impact Consumers & Ratepayers?

- As time allows, a few planned updates will be socialized during the working group session, please consider both stakeholders separately with your feedback

Next meeting, kindly be prepared to informally share your top recommended GO 153 update highlighting the positive or neutral impact the proposed change would have on both LifeLine Consumers and Ratepayers.

(it would be helpful to email lisa.bass@cpuc.ca.gov in advance with the GO 153 section description, section numbers, current language, and proposed language, plus an unofficial assessment of positive or neutral impact on each separate stakeholder. Please note: This is not intended to be associated with any formal rulemaking process)
