TRANSPORTATION LICENSING AND ANALYSIS BRANCH (TLAB)

TLAB’s Licensing Section analyzes applications from carriers, issues permits and certificates to carriers that meet state requirements, writes proposed decisions to approve or deny carriers’ CPCN applications, manages changes to carrier operations, communicates with carriers, and tracks carrier compliance with permit requirements. TLAB’s Analysis Section functions as the Commission’s subject matter expert on policy matters, providing technical and advisory support to commissioners, administrative law judges, and all levels of agency management on transportation matters.

Processing Carrier Applications

TLAB’s Transportation Licensing Section is processing and managing applications for over 7,400 carriers throughout California. Items processed in January 2024 include applications, vehicle and driver updates, vehicle safety inspection results, and other requests. This work is accomplished through the CPUC Transportation Carrier Portal (TCPortal), an online system that allows carriers to submit applications and other requests electronically and make payments online. The TCPortal tracks certain licensing activities as shown in the following tables and figures.

Figure 1. Total Permits & Certificates

Total Permits and Certificates. Figure 1 shows the total number of operating authorities (active and suspended) by month.

Table 1. Permits and Certificates by Category

Permits and Certificates by Category. The Commission grants permits and certificates for five categories of transportation carriers. Table 1 shows total numbers for those categories in the current month.

Carrier Type	Current Total
Transportation Charter Party	7269
Passenger Stage Corporation	104
Vessel Common Carrier	15
Transportation Network Company	20
Autonomous Vehicle	6

Figure 2. Monthly Completions of Permit Categories

Monthly Completions of Permit Categories. In addition to new applications for operating authorities, TLAB processes refile applications, transfer applications, and renewal applications. Figure 2 shows the application numbers of each category completed by month.

Figure 3. Suspensions and Revocations by Month

Suspensions and Revocations. Carriers can be suspended or revoked for various reasons such as failing to maintain active insurance or to file annual or quarterly PUCTRA statements. Carriers may also voluntarily suspend operations. Figure 3 shows both types of suspensions/revocations by month.

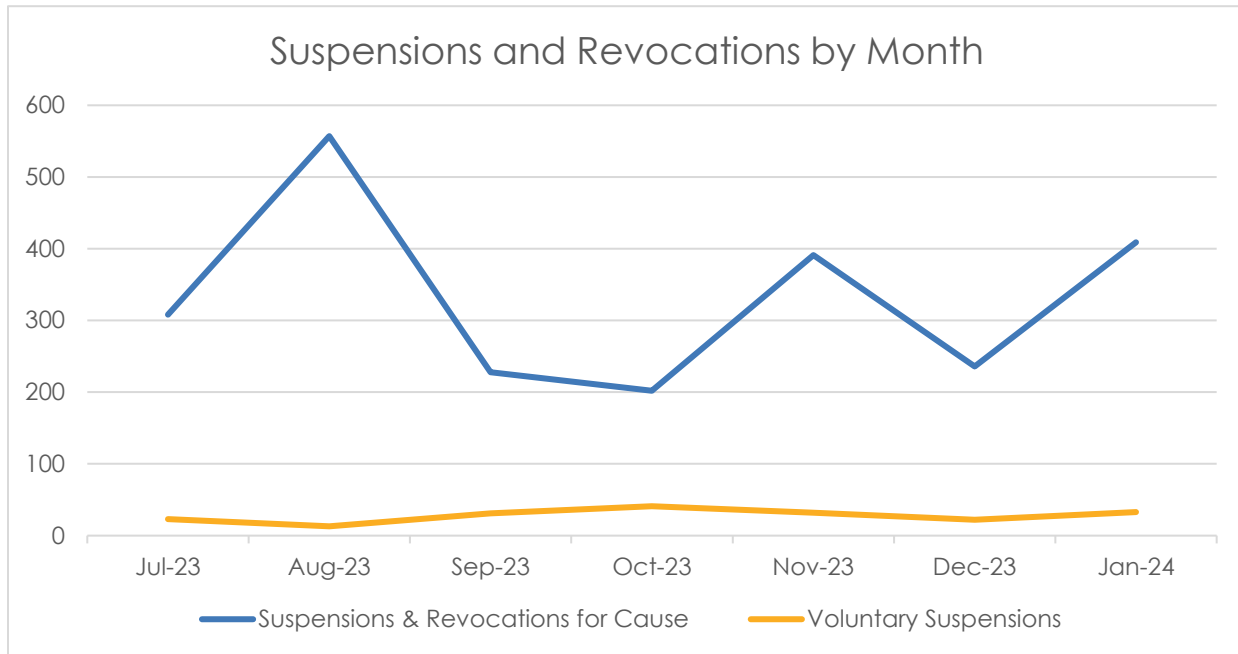

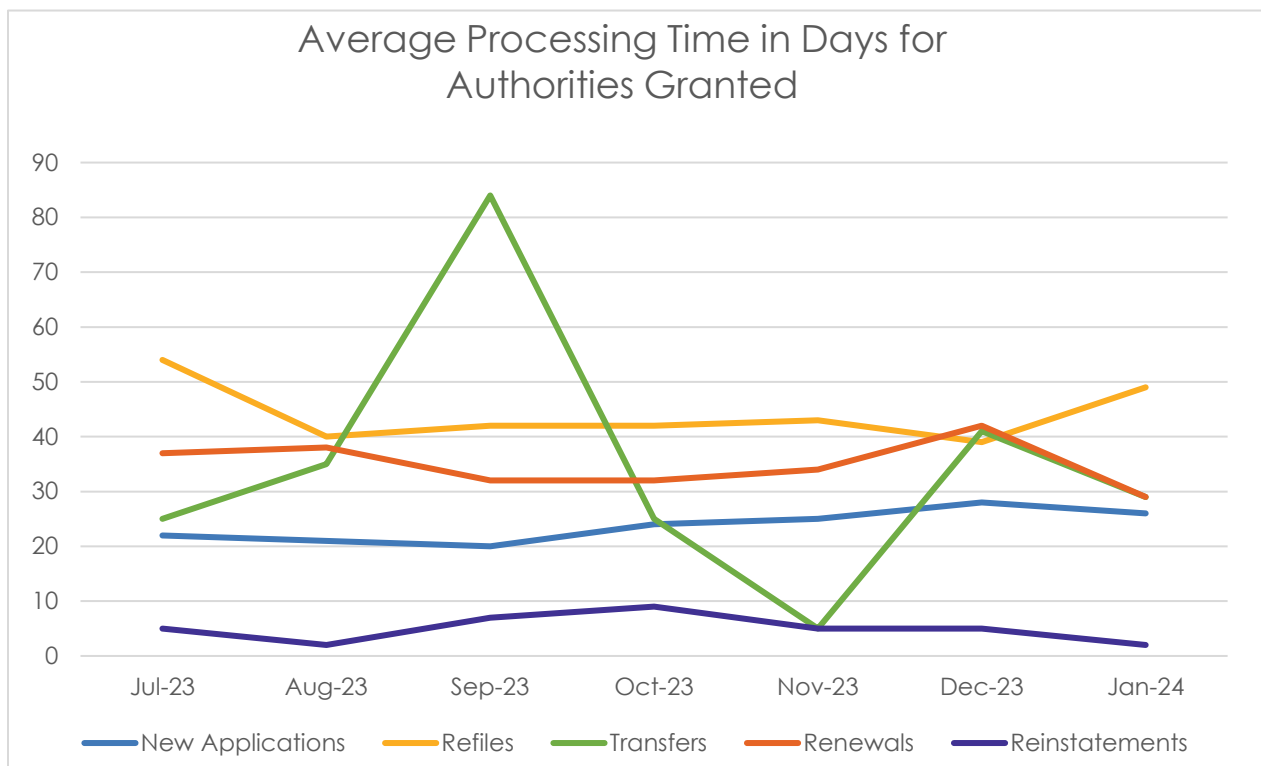

Figure 4. Average Processing Times

Average Processing Times. The total time to process an application, from initial receipt to issuance or denial of a permit or certificate, depends on internal processing time and on the time for external entities to provide necessary information. Upon receipt of applications, CPUC staff review them for completeness and issue deficiency notices to carriers for any outstanding items.

Examples of these items include evidence of insurance coverage filed by the carrier’s insurance provider; evidence of compliance with drug and alcohol testing requirements; and inspection by the California Highway Patrol for modified limousines and vehicles with a seating capacity of 11 or more. Figure 4 shows the average total processing time for the major categories of permits and certificates processed by TLAB.

Compliance with Ordering Paragraphs

Figure 5. Compliance with Ordering Paragraphs

The Transportation Program is currently responsible for 709 separate Ordering Paragraphs. Many Ordering Paragraphs result from decisions to approve CPCNs for passenger stage corporations, and include permit requirements such as obtaining appropriate insurances, enrolling in drug testing and California Department of Motor Vehicles (DMV) pull-notice programs, receiving bus terminal inspections by CHP and others. Other OPs uphold TEB enforcement actions and impose fines for carrier violations of law and wrongdoing against consumers. OPs also introduce new reporting requirements and transportation policies. Figure 5 shows compliance with the Ordering Paragraphs.

Docket Activity

Current Policy Proceedings. The Transportation Analysis Section supports three current proceedings. R.12-12-011 develops regulations relating to transportation network companies and autonomous vehicles. R.19-02-012 implements Senate Bill 1376, incentivizing transportation network companies to provide on-demand service for persons with disabilities, including wheelchair users who need a wheelchair accessible vehicle. R.21-11-004 implements the California Clean Miles Standard and Incentive Program, enacted through Senate Bill 1014, requiring the California Air Resources Board and the Commission to jointly work to lower greenhouse gas emissions from transportation network companies.

1) [R.12-12-011](#) / **TNC Rulemaking / Mason & Chiv / Shiroma**

- a) D.23-12-015 was issued on December 14 and requires TNCs to submit their annual reports for 2014-2019 to the Commission with limited redactions.
- b) **Order to Show Cause.** On December 1, the Joint Assigned Commissioners and Assigned Administrative Law Judges issued a ruling ordering Cruise to show cause why it should not be sanctioned by the Commission for failing to provide complete information and for making misleading public comments regarding a pedestrian collision on October 2, 2023 and its subsequent interactions with the Commission. In response to an email request from Cruise, the assigned ALJ extended Cruise’s deadline to provide a response by January 12, 2024. Cruise responded with a Motion for Settlement, which the ALJ scheduled a hearing on February 6 to discuss.

2) [R.19-02-012](#) / **TNC Access Rulemaking / Chiv / Shiroma**

- c) No docket activity.

3) [R.21-11-014](#) / **Clean Miles Standard / Wang / Shiroma**

- d) Phase 1 Proposed Decision was issued January 11, 2024.

Applications for Rehearing of Autonomous Vehicle Resolutions. On September 14, the City and County of San Francisco filed applications for rehearing of two resolutions authorizing Cruise and Waymo to expand driverless passenger service; A.23-09-015 (Waymo Resolution TL-19144) was denied on November 8 and A.23-09-014 (Cruise Resolution TL-19145) is still pending.

Carrier Application Proceedings. The Transportation Licensing Section assists the Commission in the regulation of Passenger Stage Corporations and Vessel Common Carriers. Passenger Stage Corporations (PSCs) are carriers that transport passengers between points on an individual fare basis. Examples are fixed-route bus services and “share-the-ride” airport shuttle services. Vessel Common Carriers (VCCs) are carriers that transport persons or property between points in the State. Examples are commute ferry services in the San Francisco Bay and services between California mainland points and Catalina Island. PSCs and VCCs are common carriers and must file requests with the Commission through a formal process. Both carrier types require a “certificate of public convenience and necessity” (CPCN) from the Commission for the authority to operate in California.

Joint Agency Collaboration/Outreach/Training

Joint Agency Collaboration. Information sharing and collaboration with other transportation agencies is a critical part of TLAB's work.

- Bi-monthly TLAB Staff and CARB Staff coordination meeting on the Clean Miles Standard

Outreach and Education. TLAB provides outreach and education to potential and current carriers through presentations on application fundamentals at venues such as SFO and LAX, and attendance at functions sponsored by transportation-related organizations such as the Greater California Livery Association and the California Bus Association.

Training. TLAB managers and staff regularly attend all trainings required by the Commission, as well as trainings for developing work skills and industry-specific trainings. For example:

TRANSPORTATION ENFORCEMENT BRANCH (TEB)

The Transportation Enforcement Branch (TEB) regulates Charter-Party Carriers of Passengers (TCP) (e.g., limousines, airport shuttles, chartered and scheduled bus operators, Transportation Network Companies (TNC) and vessels in California to safeguard the public by ensuring compliance with Commission General Orders (GO), Public Utilities (PU) Codes, and other applicable laws and regulations. TEB conducts our core safety assurance through compliance inspections, investigations, and enforcement activities. TEB promotes safety by conducting outreach activities for passenger carriers, training for law enforcement on applicable General Order regulations, and reviews all public complaints that it receives.

Consistent with the Commission’s Strategic Directives¹ and Enforcement Policy,² TEB developed and utilizes a Safety Management System that is implemented through the following pillars: Transportation Safety Assurance, Transportation Risk Management, and Transportation Safety Promotion.

Transportation Safety Management System

TEB reports the following progress for January 2024 for the following program elements.

Transportation Safety Assurance – Assuring the Commission’s regulated entities comply with the law and have sufficient training and resources to ensure the safety of the public, their workers, and the environment. For TEB, this includes Investigations, Field Operations, and related Enforcement Activities.

- Transportation enforcement field activities:
 - » Cross Border Xpress (CBX)
 - » Sacramento Daycare Facility

Transportation Risk Management – Continually identifying, assessing, and reducing operational risks through mitigation measures faced or posed by the entities the CPUC regulates. Continued monitoring of information, including but not limited to data obtained from field enforcement operations for emerging trends and any associated risks above the risk tolerance level.

- Update safety risk scores from the risk survey workshop with enforcement analysts.
- Prepare Risk Assessment Report for the fourth quarter of 2023.

Transportation Safety Promotion – Supporting efforts to assure that the public and regulated transportation entities can make informed choices and know how to respond to unsafe situations. For TEB, this includes Training and Education, Outreach Efforts with Industry and Law Enforcement, and Commission Engagement.

UEB investigates alleged violations by utilities, including communications (both wireline and wireless), energy (both electric and gas), and water companies. When sufficient evidence of violation is uncovered, UEB brings cases before the Commission to seek appropriate penalties and remedies for consumers.

UEB has received proof of enrollment authorizations for 4 customers; 1 customer did not have information in the CIMS database for staff to pursue data requests from; staff contacted 1 customer who could not confirm if it was his wife on the recording. Currently, UEB has not yet received proof of enrollment authorization for all requested customers since the deadline to respond is February 7, 2024. Therefore, staff’s investigation for December is ongoing.

Compliance with Ordering Paragraphs

There were no new Ordering Paragraphs added to UEB’s COPS tracker for the month of January. UEB was responsible for 41 separate Ordering Paragraphs. As of January 2024, 41 of the Ordering Paragraphs (representing 100%) have been complied with, thus none are out of compliance.

Ordering Paragraphs related to UEB’s work are attributable to the imposition of fines, adoption of settlements, ordering of consumer refunds or reparation and other remedies and corrective actions, including reporting requirements, resulting from UEB’s investigations of violations of law and wrongdoing against consumers.

The numbers reported above tracks compliance with ordering paragraphs assigned to UEB and do not include tracking for compliance with payment of fines, penalties, surcharges, or the like, which are assigned to Fiscal Office under the COPs system. However, UEB staff also tracks such payments separately in our case management system and informs fiscal of any identified issues.

Outreach/Training/Other Activities

State National Action Plan (SNAP): On 1/25/24, the FCC discussed the winding down of its Affordability Connectivity Program. It will stop accepting applications on 2/7/24. As of now, there are sufficient funds to last through April 2024. However, it is unknown if Congress will approve more funding to extend the program.
