2. Reflects the annual base salary approved for March 1, 2015 or, upon hire/promotion.
3. Represents target Short-Term Incentive Plan award based on annual salary at March 1, 2015 or, upon hire/promotion. Target awards range from 30% to 120% of base salary. An overall company-wide STIP score is applied that can range from 0 to 2, depending on the extent to which objectives are met. 2015 objectives were based 50% on safety, 25% on customer satisfaction, and 25% on financial results. An individual performance modifier is then applied that can range from 0 to 1.5. Actual awards were paid in 2016.
4. Restricted stock units (RSUs) granted in 2015. Value is based on the grant date closing price of PG&E Corporation common stock. RSUs granted in 2015 generally vest in one-third increments over the first three years following the grant. Upon vesting, the RSUs settle in net shares of PG&E Corporation common stock.
5. Performance shares granted in 2015. Approximately 83% (based on grant date value) of the performance shares granted are subject to a total shareholder return measure. Generally, these performance shares vest, if at all, at the end of a three-year period, depending on PG&E Corporation's TSR relative to its comparator group. There will be no payout for TSR performance below the 25th percentile; there will be a 25% payout for TSR performance at the 25th percentile; there will be a 100% payout for performance at the 60th percentile; and there will be a 200% payout for performance at the 90th percentile. Approximately 17% (based on grant date value) of the performance shares granted are subject to equally weighted safety and cost efficiency measures. Generally, these performance shares vest, if at all, at the end of a three-year period, depending on actual results as compared to the established safety and cost efficiency goals, with a maximum payout factor of 200%. Upon vesting, performance shares settle in net shares of PG&E Corporation common stock. The value of performance shares using the TSR measure is based on the grant date fair value of a performance share as determined by Monte Carlo simulation. The value of performance shares using safety and cost efficiency measures is based on the grant date closing price of PG&E Corporation common stock.
6. PACIFIC GAS AND ELECTRIC COMPANY
PROPORTION OF COMPENSATION PAID DIRECTLY OR INDIRECTLY BY UTILITY
CUSTOMERS FOR THE YEAR ENDED DECEMBER 31, 2015

In the 2014 General Rate Case (GRC), PG&E did not seek recovery of all of the costs included in "Aggregate Compensation". The 2014 GRC request excluded costs for the Long-Term Incentive Program, Special Incentive Stock Ownership Premiums, officer perquisite allowances, and the Short-Term Incentive Plan payments for officers. On the "Compensation Received or Deferred" schedule those costs are presented in the columns titled "Proceeds from Stock Options Exercised", "Proceeds from Restricted Stock", "Special Incentive Stock Ownership Premiums Value at Vesting", "Other Annual", and "Other One Time." The amounts received by employees in 2015 for the Short-Term Incentive Plan reflect performance in 2014 and were accrued during 2014. As provided in the 2014 GRC decision, PG&E's recovery of Short-Term Incentive Plan awards for employees other than officers was reduced by \$41 million (31%). Assuming that the 2014 GRC and other proceedings provided for recovery of Base Salary, Total Benefits, and Expense Reimbursements, and 69% of the Short-Term Incentive Plan payments to non-officers, the proportion of "Aggregate Compensation" paid directly or indirectly by utility customers amounted to approximately 47%.
