

**Andrew Papson** is the Electric Bus Program Manager at Foothill Transit, where he oversees one of the largest fleets of electric buses in the nation. Andrew is responsible for tackling and overcoming many of the barriers to growing to 100% electric, including charging and grid issues, regulatory and legislative actions, and funding opportunities.

Outside of Foothill Transit, Andrew has participated in the nationwide conversation within the transit industry on how to build successful electric bus programs. He works with industry partners, environmental nonprofits, and other stakeholders to advance electric bus goals. Andrew has participated in and shared lessons learned at industry forums domestically and abroad.

Andrew has deep experience in electric transit, heavy duty vehicles and the environmental impacts of transportation. His career has included environmental consulting and clean transportation nonprofit work. He holds a master's degree in Transportation Engineering and Energy from the University of California, Berkeley, and a bachelor's degree in Materials Science Engineering from Stanford University.
