

Resiliency and Microgrids Proceeding – WebEx Meeting

Subject: Microgrid Incentive Program Draft Implementation Plan

Public Workshop

October 26, 2021 2 PM – 4:30 PM

WebEx (Slide View/Submit Written Questions)

No registration is required.

*This workshop will be held via WebEx. **All workshop participants will be muted during the introduction and speaker presentations.** During the discussion, participants may use either the “raise your hand” WebEx button online or the Chat window to comment/ask questions. Call-in users may dial *3 to raise their hand. Questions/comments will be addressed in the order received.*

Background:

Rulemaking 19-09-009 facilitates the commercialization and deployment of microgrids while prioritizing system, public, and worker safety and avoiding shifting costs between ratepayers. In September 2019, the Commission initiated this Rulemaking to design a framework surrounding the commercialization of microgrids associated with Senate Bill (SB) 1339 (Stern, 2018), as well as to account for the Commission’s commitment toward utilizing additional technologies and activities that may be useful for achieving overall resiliency goals.

On January 21, 2021, the CPUC issued Decision D.21-01-018, which among other items, approved \$200 million statewide for a new Microgrid Incentive Program (MIP) intended to fund clean energy microgrids to support the critical needs of vulnerable populations impacted by a grid outage.

As part of the MIP development, the program administrators (Pacific Gas & Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company) hosted a series of public workshops this past summer to solicit input on the program design and implementation detail from interested stakeholders.

Purpose of the Meeting:

The purpose of this meeting is for the program administrators to present elements of the draft implementation plan. The program administrators will report out on the input that they received from the summer public workshops series. They will also present on how the input was incorporated into the draft proposal and if specific input was not incorporated, provide reasons why.

Meeting participants will have the opportunity to confirm if the program administrators are adequately representing the input they provided. Additionally, participants will also provide input on the direction of the draft implementation plan.

Please note that the draft implementation plan presented at this meeting is preliminary and will be subject to further review and input. Additionally, attendees' input at this meeting will not be part of the official record. The deadline for the program administrators to file the final implementation plan is on December 3, 2021. At that time, parties will have the opportunity to comment on the joint implementation plan as part of the official record. Subsequently, the Commission will issue a decision to formally adopt the Microgrid Incentive Program.

Meeting Agenda:

Introduction (<i>CPUC Staff</i>)	2:00p – 2:05p
WebEx logistics, agenda review	
Opening Remarks (<i>Commissioner Shiroma, CPUC</i>)	2:05p – 2:15p
Presentation on Draft Implementation Plan	2:15p – 4:15p
(<i>Program Administrators</i>)	
Presentations	
Q&As	
Closing Remarks, Adjourn (<i>CPUC Staff</i>)	4:15p – 4:20p
Provide information on next steps
