**RE: Request for Extension of Energy Division Review of PG&E 2020 Risk Spending
Accountability Report**

Dear Ms. Duda:

On June 21, 2021, you sent an email requesting a three-week extension, from June 19, 2021 to July 9, 2021, for Energy Division staff to review the Pacific Gas and Electric Company (PG&E) 2020 Risk Spending Accountability Report (RSAR).

Ordering Paragraph 8 of Decision (D.) 19-04-020 directs the utilities to file their RSAR by March 31 of each year and adopts a review schedule of these RSARs throughout the year. According to the RSAR review schedule that Energy Division posted on April 8, 2021, the deadline for Energy Division staff review of the PG&E 2020 RSAR is June 19, 2021. Your email requests an extension to complete its review by July 9, 2021 due to delayed response of data requests from PG&E as they are preparing their general rate case (GRC) submittal, which is due June 30.

Your email stated that if I grant this extension request, Energy Division staff will notify PG&E and other interested parties of this delay by sending a notice to the service list for the latest PG&E General Rate Case, Application (A.) 18-12-009, and the Rulemaking to Further Develop a Risk-Based Decision-Making Framework for Electric and Gas Utilities, Rulemaking (R.) 20-07-013. Your email also stated that Energy Division will notify the Safety Policy Division and post notice on the internet webpage where Energy Division has links to the RSARs and staff reviews for the large electric and gas utilities.

I remind Energy Division that pursuant to Rule 16.6 of the Commission's Rules of Practice and Procedure, extension requests are required to be made at least five business days prior to the existing compliance date. Energy Division should complete,

circulate, and post its review as expeditiously as possible and notify the service lists of A.18-12-009 and R.20-07-013.

Sincerely,
