

WPTF

Track 2 Proposal

JULY 19, 2018 WORKSHOP

WPTF Proposal

- ▶ Adopt three-year forward requirements for system, local, flex
 - ▶ Base and reconfiguration auctions
- ▶ CAISO (preferably) or independent third party administers a centralized capacity clearinghouse
- ▶ Model BTM solar as a supply-side resource in ELCC QC studies
- ▶ Unbundle flex RA attribute from generic and local RA attributes
 - ▶ Commission should consider CAISO's proposal to conduct flexibility deliverability analysis
 - ▶ Storage EFC should be full range of the resource on the condition that the resource isn't available for providing other services
