**SUBJECT:** General Order (GO) 95 Audit of Cricket Communications in San Diego

Dear Mr. Hice:

On behalf of the Utilities Safety and Reliability Branch of the California Public Utilities Commission (CPUC), I conducted an audit of Cricket Communications' (Cricket) San Diego service area from March 7-9, 2011. The audit included a review of Cricket's records and a field inspection for compliance with GO 95.

During the audit, I found that Cricket had facilities on only one joint use distribution pole supporting circuits less than 50kV. Please notify the CPUC when Cricket Communications expands its facilities on additional joint use distribution poles in California.

If you have any questions, you may contact me at (213) 620-2780.

Sincerely,
