SUBJECT: The Blade Report

Dear Mr. Schwecke:

Once Southern California Gas has had an opportunity to fully review the Blade root cause analysis, we ask that you respond to the following:

- List any factual statements in the report you disagree with and the basis for that disagreement;
- List any method of analysis or modelling in the report you disagree with and the basis for that disagreement;
- List any conclusions or recommendations in the report you disagree with and the basis for that disagreement;
- Indicate which recommendations you believe have already been satisfied with an indication of how the recommendation has been satisfied;
- List any steps that you plan on taking based on information in the report to ensure safety of Aliso and other storage fields that SoCalGas operates.

We are also interested in any other information you have you believe is relevant that is not in the RCA and any other response you may have to the report.
