**Purpose**

The purpose of this workshop is to provide the opportunity to present and solicit stakeholder feedback on the appropriate models for structuring a bill protection program to ensure that participants experience energy cost savings as a result of participating in the San Joaquin Valley pilots.

**Background**

The Decision Approving San Joaquin Valley Disadvantaged Communities Pilot Projects (D.18-12-015) identified that a central objective of the pilots is ensuring that all participating households experience reduced energy costs as a result of the pilot. To accomplish this, the Decision directs the Investor-Owned Utilities (IOUs) to propose bill protection or affordability elements and to host and facilitate a workshop for parties to explore appropriate bill protection approaches.
